This is the portable version of VueMinder Lite - a rich-featured software application designed to help you schedule tasks and appointments, in order to manage upcoming events more efficiently. Since installation is not necessary, you can store VueMinder Lite USB on USB flash drive (as the name suggests), in order to directly run its executable file on any computer. Thus, no leftover items can be found on the hard drive or in the Windows Registry after program removal. The app comes with a professional-looking interface whose window can be maximized on the screen. It is possible to set up a new event, recurring

event or all-day event by supplying VueMinder Lite USB with all sorts of details, such as the location, start and end time, recurrence pattern and file attachments. From this point on, you can either send the task via email, print the details, save the information to the calendar, or export data to the HTML format. Tasks can be viewed in several methods, according to the viewing mode (daily, weekly, monthly) - in overlay, separate date/calendar columns, or only the work days, just to name a few. Key features include the following: - schedule recurring events, all-day events, tasks and meetings; - display upcoming events, tasks and meetings in a calendar; - organize and schedule future appointments, projects, events, tasks and meetings according to individual preferences, including recurrence pattern, location, start and end time; - attach files to your events; - control which events can be sent via email; - modify your appointments and tasks according to custom settings; - use categories, priority types, locations and contacts to manage your events more efficiently; - print event details; - backup and restore your data; - perform update checkups; - perform automatic start-up; - use proxy parameters to bypass blocked sites; - use many UI languages, including English, Chinese, German and more. VueMinder Lite is designed to help you schedule upcoming events, tasks and meetings more efficiently. After installation, it's not necessary to run the software on your hard drive. It is highly recommended to run the software on your portable USB flash drive. This will leave you with nothing on your hard drive and/or the Windows Registry after program removal. VueMinder Lite is fully-configurable; in addition to the main settings, it includes some extra customization options, such as theme options, custom date formats and others. It's possible to set events apart by using colors, adjust the color scheme and change the date/calendar columns layout. From this point on, you can view all events in three different modes: in overlay, separate date/calendar columns or just the work days. It is also possible to create categories, priority types, locations and contacts. An essential feature of VueMinder Lite is the ability to schedule recurring events, which will be created as tasks, every time they are due. For each recurring event, you can specify the recurrence pattern, date range, as well as location and file attachments. As for a whole, VueMinder Lite is a fully-functional desktop calendar which is packed with numerous useful features. However, you can enhance the user experience by upgrading to the portable VueMinder Pro or VueMinder Ultimate versions. Features: - schedule recurring events, all-day events, tasks and meetings; - display upcoming events, tasks and meetings in a calendar; - organize and schedule future appointments, projects, events, tasks and meetings according to individual preferences, including recurrence pattern, location, start and end time; - attach files to your events; - control which events can be sent via email; - modify your appointments and tasks according to custom settings; - use categories, priority types, locations and contacts to manage your events more efficiently; -
